General

Q: Can I access EduSync on my phone?

A: Yes! EduSync works on any device with a web browser. The interface adjusts to fit your screen size.

Q: Can I use EduSync offline?

A: EduSync has limited offline support. Some pages may load from cache, but you need an internet connection to save data and generate reports.

Q: How is my data protected?

A: EduSync uses industry-standard encryption for all data. Each school's data is kept completely separate from other schools. Only authorized users can access the system.

For Teachers

Q: I can't see my gradebook. What's wrong?

A: Your **teaching assignments** may not be set up yet. Ask your school administrator to assign you to your sections and subjects under Teacher Management. See Section 5 for details.

Q: Can I edit grades after saving?

A: Yes, you can edit grades at any time during the grading period. Contact your admin if grades are locked after the deadline.

Q: My grade calculations seem wrong. What should I check?

A:

1. Make sure the **Highest Possible Score (HPS)** is correct for each activity in the ECR
2. Check that the **component weights** (WW, PT, QA) are set correctly for the subject
3. Verify that all scores are entered (blank scores may affect the average)

Q: How do I enter grades for MAPEH?

A: MAPEH is a **composite subject** with four components (Music, Arts, PE, Health). Enter grades for each component separately, and the system will auto-compute the MAPEH average.

For Admins

Q: How do I add default subjects for a new school?

A: Go to **Learning Areas** in the sidebar. If no subjects exist, click "**Load Default DepEd Subjects**" to automatically add all standard subjects based on your school type.

Q: A teacher account is showing "Missing or insufficient permissions." What do I do?

A: Check the teacher's role in **User Management**. Ensure their account has the correct role assigned (e.g., "teacher" not "student").

Q: How do I change the current school year?

A: Go to **Settings** → Update the **Current School Year** field. This affects which academic year is active for grades, attendance, and reports.

For Students

Q: I forgot my password. How do I reset it?

A: Click "**Forgot Password?**" on the login page, or ask your teacher/admin to reset your password.

Q: Why can't I see my grades yet?

A: Your teacher may not have entered or published grades yet. Grades become visible once your teacher saves them.

For Parents

Q: How do I register for a parent account?

A: Go to your school's EduSync website and click "**Parent Registration**". Fill in your details and link your account to your child using their Student ID (LRN).

Q: I have multiple children in the school. Do I need separate accounts?

A: No! One parent account can be linked to multiple children. You can view all of them from your dashboard.
